Mr. Shawn Sorourbakhsh  
Caltrans District 11 - Design  
P.O. Box 85406  
San Diego, CA. 92186-5406

Subject: Water Construction Availability for the Imperial 111 Expressway project unit 3

This letter is to confirm that water will be available for the construction of the Imperial 111 expressway project unit 3.

The procedure for obtaining water is as follows:

1. Contractor needs to come in to Northend Division office to fill out a application for Temporary water use.
2. Contractor will need to indicate the locations where they would like to obtain the water from.
3. Contractor will be responsible for pump installation
4. The Imperial Irrigation District charges an annual fee of \$375.00 per pump. No additional charge for the quantity used.

Per our conversation by telephone, an amount of approximately 50,000 cubic meters will be required for the project from January 2002 to January 2004. Once the permit is approved, IID will guarantee that the contractors will have sufficient water for the construction of the Imperial 111 Expressway project.

Please contact me at (760) 351-2518 if you have any questions.

Michael A. Pacheco  
Superintendent of Operations  
Northend Division
